

Internet of Things (IOT) Course Group 1 – List of IoT Devices

- The following list of IoT devices and accessories have been provided in one plastic **CASE 1** to the following students from Group 1.
- The students are responsible for all these devices and accessories.
- All the devices must be returned in the same condition to Prof. Dr. Angela Nicoara after the IOT course examination.
- If the students break any devices or accessories, they must provide new devices or accessories of the same model, replacing the broken ones.
- **Important:** The students must not change the passwords (i.e., "@iotlabRPIX") provided for all the Raspberry Pi devices.

FINAL PROJECT	
1x Raspberry Pi 4 (35) + Charger + SD card	✓
1x Pi Wedge - 40-Pin + Band	✓
3x Adafruit BME280 Sensor (T/H/P)	✓
3x Soil Moisture Sensor	✓
3x Breadboard (small)	✓
Wires (20)	✓
3x Raspberry Pico	
3x Pico LoRa Node Modul for Raspberry Pi Pico	
1x Lora Gateway	
1x Linux VM in Lab Services	

1x Arduino Uno + USB cable ✓
1x Lora Board + cable ✓
